We invite applicants aged between 18-25 years of age that already possess a good foundation and understanding of basic hair colouring. All potential students will be invited to an interview to establish their personal suitability for this unique ground breaking new project.

Commitment, hard work and dedication are all needed in abundance but the rewards and special brand of colour education that's offered throughout this course will certainly make it all worthwhile!

The Fellowship's Colour Project is not allied to any one product manufacturer; it will primarily be focused on the artistry of pure hair colour as 9 of the industry's world renowned colourists share their unique techniques, creativity and vision throughout the year's action packed calendar.

Your newly acquired colour confidence and skills will be brought to dazzling life in the photo shoot planned during the course with a top photographer and artistic direction from the Colour Masters.

You will also be given the chance to present on the Fellowship for British Hairdressing stage at Salon International in October and will complete the course in November with a Finale Show.

Act now as places are strictly limited for this once in a lifetime 'Colourful Experience!'
